Presentation Title: “A Robust Supplier Qualification Program: Meeting the Needs of a Global Supply Chain”

Economic adulteration events have emphasized the need for a robust supplier quality management program, with emphasis on understanding the complete supply channel for GMP production materials. Integration of quality risk management principles into the Supplier Management program is essential to assuring the appropriate level of oversight to the supplier base.

This presentation will highlight:

- Factors to consider at Supplier Selection
- Building a system to capture material supply channels
- Supplier Qualification evaluations
- Auditing for Supply Chain Integrity
- Quality Agreement Do's and Don'ts
- Supplier Disqualification considerations
